EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Julia Glazer on November 5, 2003.

2. The application has been amended as follows:

IN THE CLAIMS:

Claim 25. In lines 2-3, **after** "bleaching compound", **delete** ", which is preferably selected from the group consisting of alkali metal salts of perborate, percarbonate and mixtures thereof,"

Oath/Declaration

3. Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth. Specifically, the examiner notes that applicant has claimed priority to Application Serial Number 09/202,387 in their latest response. Thus, a new oath is required that identifies that the instant application is a continuation-in-part of Serial Number 09/202,387. The substitute oath or declaration must be filed within the **THREE MONTH** shortened statutory period set for reply in the "Notice of Allowability" (PTO-37). Extensions of time may **NOT** be obtained under the provisions of 37 CFR

Art Unit: 1751

1.136. Failure to timely file the substitute declaration (or oath) will result in **ABANDONMENT** of the application. The transmittal letter accompanying the declaration (or oath) should indicate the date of the "Notice of Allowance" (PTOL-85) and the application number in the upper right hand corner.

4. The following is an examiner's statement of reasons for allowance:

Wang et al, WO 98/29528, discloses a laundry detergent composition comprising 1-80% by weight of a deterative surfactant (see page 3, lines 26-28), 0.1-80% by weight of a detergent builder (see page 5, lines 10-12), and 0.1-8% by weight of a hydrophobically-modified cellulose polymer with a molecular weight of 10,000-2,000,000 (see page 6, line 8-page 9, line 14). It is further taught by Wang et al that the detergent composition may also contain bleaches, bleach activators, enzymes, enzyme stabilizers, pH adjusting agents, and soil release agents (see page 9, lines 15-23). However, patentee differs from applicant in that Wang et al does not teach or suggest in general a detergent composition that contains a cyclic amine polymer, as required by applicant in the instant invention.

Leupin et al, U.S. Patent No. 6,384,011, discloses a laundry detergent composition comprising 0.1-5% by weight of a hydrophobically modified cellulosic polymer having a molecular weight between 5,000-2,000,000 (see col. 3, line 63-col. 6, line 4), and 1-80% by weight of a deterative surfactant (see col. 6, lines 7-9). It is further taught by Leupin et al that the detergent composition may also contain bleaches, bleach activators, enzymes, enzyme stabilizers, pH adjusting agents, and soil release agents

Art Unit: 1751

(see col. 8, line 31-col. 11, line 3). However, patentee differs from applicant in that Leupin et al does not teach or suggest in general a detergent composition that contains a cyclic amine polymer, as required by applicant in the instant invention.

Accordingly, the claims viewed as a whole would not have been obvious to one of ordinary skill in the art at the time of the invention after viewing the prior art of record.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Mruk whose telephone number is (703) 305-0728. The examiner can normally be reached on Monday-Thursday from 7:00 AM to 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta, can be reached on (703) 308-4708. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9310 (Before Final) and (703) 872-9311 (After Final).

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0661.
